EXPERIENCE

- GCDI - SOAR Intern at Goldman Sachs: Completion Certificate** Jan 2023 - June 2023
- Provided support for automated file hash-blocking capabilities across various endpoints.
 - Worked on automating analysis of emails containing password protected attachments.
 - Migrated site-blocking capabilities on upcoming infrastructure.
 - Monitored app run errors for apps integrated with a SOAR platform.
- Tech-Risk Engineering Intern at Goldman Sachs: Completion Certificate** June 2022 - July 2022
- Automated file hash blocking across various endpoints via a SOAR platform.
- Digital Forensics & Incident Response R&D Intern at CyberSocial:** Oct 2021 - March 2022
- Learnt various tools and techniques of Digital Forensics & Incident Response, along with cyber-crime case studies.
- Penetration Testing Intern at Virtually Testing Foundation: Completion Certificate** Oct 2021 - Dec 2021
- Solved weekly labs based on different kinds of web application attacks (Injection, XSS, CORS, CSRF etc) and submitted the Penetration Testing reports for each lab, over a duration of 10 weeks.
- Contributor in LGMSOC'21 by LetsGrowMore: Certificate** (17 PRs merged) June 2021 - August 2021

EDUCATION

- Bachelor of Technology, Computer Science Engineering** August 2019 - July 2023
• International Institute of Information Technology, Bhubaneswar (IIIT-Bh) CGPA 8.65
- Class 12 AISSCE** April 2018 - March 2019
• Delhi Public School, Ruby Park Kolkata (DPSRPK) AISSCE 94%
- Class 10 AISCE** April 2016 - March 2017
• Delhi Public School, Ruby Park Kolkata (DPSRPK) AISCE CGPA 10

PROJECTS

- PWD-Generator** : Google Colab Notebooks in .ipynb format [GitHub Repo] [GitHub Pages] [Google Colab]
• A personal project for generating passwords based on interactive user input, enabled with storage on Google Drive.
- guest-room-management** : PostgreSQL 10.15, pgAdmin 4.30, Python Bottle Framework, React [GitHub Repo]
• A college project for RDBMS Lab 4th sem; Collaborated to handle the database and documentation
- Diabetes-Tracker** : C++11, Sublime Text 3 [GitHub Repo] [GitHub Pages]
• AISSCE Project 2019 (originally built for TurboC++); Runs on Win 7 and 10, using gcc 4.8 and above

SKILLS

Tools Python3, C++, Splunk, Kali Linux, WireShark, Burp Suite, OWASP ZAP, nmap

ACHIEVEMENTS & CERTIFICATES

- **IIIT Bhubaneswar:** Recipient of The Governing Body Merit Scholarship
- **Coursera:** IBM Cybersecurity Analyst Professional Certificate; IT Fundamentals for Cybersecurity Specialisation; Introduction to Cyber Security Specialization; Introduction to the Threat Intelligence Lifecycle; Machine Learning
- **Fortinet Network Security Associate:** NSE-1; NSE-2
- **Forage Virtual Experience in Cybersecurity:** Goldman Sachs; AIG; Mastercard; ANZ
- **LinkedIn Assessments:** Cybersecurity, Python, C++, OOP, HTML, Machine Learning
- **Paper:** Realia Education in Language Learning [IJELTS Vol.3 July 2021] [Best Paper in ICEELTS 2020 by IEM]
- **Publication:** October Breeze by WordFox Publication; One amongst 50 writers selected
